

Information on Personal Data Protection

Dear business partners,

we gladly fulfil our obligation to protect personal data under the EU General Data Protection Regulation which came into force on 25 May 2018, and we provide information on processing your personal data.

The security of all business data and the protection of your personal data are critical tasks for us which are related to trustworthy and long-lasting cooperation.

We use your personal data in order to process your requests, handle your orders, or to order the required goods and services for our customers or us.

If it is necessary to store your data under the legal provisions on providing services or maintaining business relationships, it is done so solely within the scope of the legal obligation to store and record the data, while taking into account the rule of minimising the data handling.

We process the personal data for a period necessary to fulfil all obligations arising from the agreement and business relationship and to protect our rights, and for a period for which we, as the data controller, are obliged to store the personal data according to the generally binding legal regulations. We shall store most of the personal data for the duration of the agreement and for a period of 10 years from the calendar year following the contractual performance for tax and accounting purposes. In other cases, the process time depends on the purpose of processing, or it is set by legal regulations governing personal data protection.

We shall not sell your personal data to third parties or otherwise use it for commercial purposes.

Do not hesitate to contact us for further information at any time.

Best regards,

.....
Ing. Petr Melichařík
Managing Director
